

KidSport, what it's all about and why it's important to the entire community.

“ I have been a single mom for fourteen years. I have twin boys that are eighteen years old who graduated this year. I remember when KidSport helped the boys when they were just eight with hockey equipment. I thank KidSport for supporting my sons through hockey and this last spring supporting Chris and Andrew through baseball. If it wasn't for all your help in the last ten years I wouldn't have been able to put my sons through sports. Your support has helped my sons to be reliable, responsible young adults. ”

“ My daughter's friend Madison has CF, diagnosed when the girls were in grade one. Her family couldn't afford to enroll her in any activities, despite the benefit of cardio exercise for her. She is thriving now that she has lacrosse in her life. She loves to run (and is quite fast) and is grasping the concepts of the game very quickly, reveling in the friendships the team has provided her with. Her lung function has improved and is now 100%! Thank you for giving Madison the opportunity for a better life on so many levels. ”

## 2010 THRIFTY FOODS KIDS RUN

One of our most important and high profile annual events is the Thrifty Foods Kids Run, where this year, 875 kids, aged 0-12 experienced a real race environment from registration and bib numbers, warm up, excitement at the start, to medals at the end. The morning started cool and windy but the sun broke through and everyone enjoyed the 1.2 kilometer run. We'd like to thank Thrifty Foods and GoodLife Fitness Victoria Marathon for their continued support and donations.
